

**COSMETIC AND DERMATOLOGICAL LIGHT-PROTECTIVE FORMULATION WITH A
CONTENT OF WATER-SOLUBLE UV-FILTER SUBSTANCES AND
ALKYLNAPHTHALATES**

5

Abstract of the Disclosure

Cosmetic or dermatological formulations comprising at least one water-soluble UV-filter substance and at least one dialkyl naphthalate having the structural formula

wherein R¹ and R² are independently selected from the group consisting of branched
10 and non-branched alkyl groups with 6 to 24 carbon atoms, are useful for protecting skin
from harmful effects of solar radiation, particularly from UV-A and UV-B radiation.
